Railway Supply Institute, Inc.
Railway Interchange 2011
Booth Diagram Submission

Booth Diagram: If you do not have a designer's rendering, photos, or drawings of your booth, please use the grid below to sketch the layout of your booth. Please include dimensions (height, width, and length) for the back wall and all of the fixtures, components, and signage that will be used in the exhibit. Our standard booths are 10' by 10'.

For indoor exhibits, please look at the IAEE Guidelines for Display Rules & Regulations for rules on exhibit spaces. It is a simple, descriptive manual on exhibit space guidelines.

Please return the sketch to Amanda Patrick at RSI, email: patrick@railwaysupply.org, fax: 202-347-0047.

Company Name_____ Booth #: _____
